

JoomlaDay USA – Call for Speakers

We are now accepting speaker applications for the April 23, 2022 virtual event. We welcome presentations that engage, excite, and educate not only designers and developers of Joomla! websites, but also marketers, managers, and business owners.

Some of the track areas / topics we are would like include (but are not limited to):

- Showcase of exceptional Joomla! websites, and the case study of how they were built
- Showoff of useful and innovative Joomla! extensions
- Template / framework / page builder alternatives and discussions
- Plugin / extension development
- Joomla 4 features, upgrade paths
- The power of the Joomla core
- Information Architecture (UX design, structure, content organization)
- Accessibility
- Multi-language websites
- Managing and marketing your business
- Discussion panels on topics of interest

Since the JoomlaDay will be virtual, presenters will share audio and video as well as show demos, screenshares, and slides.

Although it's possible for you to present pre-recorded video, **we want sessions to be interactive**. Each session will have a moderator to monitor the chat and/or unmute members of the audience with questions. We will give you a chance to test and practice ahead of time.

If your organization wishes to **sponsor the JoomlaDay**, you may also have a booth to hang out in and take your live discussions further. Check out the sponsorship opportunities on the website!

Submit your idea **now** on <https://jdayusa.com>. Call for Speakers extends to March 1, 2022 and notifications to speakers will go out no later than March 15, 2022. Please respond as quickly as you can, so that we can put an outstanding conference together!
